

“Dreams of Stevie”

Musical Tribute to Stevie Nicks

Fleetwood Mac

Starring

Sherrill Douglas

If you need your “Nicks fix” and believe that “Stevie rocks” then you’ll get your fill as Sherrill Douglas takes you back to the “Edge of Seventeen” and the glory days of the 70’s when Fleetwood Mac and Stevie Nicks ruled. Sherrill’s portrayal of Stevie is so real and her voice and style so close, there’s no need to close your eyes to imagine you were back in the 70’s with Fleetwood Mac right before you.....

Sultry vocals, mystical movements, chiffon, lace, velvet, fringe, platform boots.... sexy and svelte.....everything to make you take a second look at the “Queen of Rock”.

It is so enchanting that the only thing missing might be the smell of incense.....
